Editorial

Osteoarthritis year 2010 in review

This issue of Osteoarthritis and Cartilage contains six reviews, representing six different areas of osteoarthritis research as presented at the 2010 World Congress of Osteoarthritis in Brussels. The speakers were tasked with summarizing their personal views of the most important progress within their particular area since the preceding Osteoarthritis World Congress. This session has been a much appreciated feature during recent Osteoarthritis Research Society International (OARSI) meetings. In addition to the papers presented here, OARSI members may view the actual presentations and slides at <http://www.oarsi.org>. If you attend this year's meeting in San Diego, September 15–18 <http://2011.oarsi.org/>, you can listen live to the next version of 'Osteoarthritis Year in Review'. A printed summary will appear some months later in your issue of Osteoarthritis and Cartilage.
