Errata

THESIS:

1. Copyright notice are not included for Figure 12 (p. 41) or Figure 14 (p. 43). Both figures originate from the same publication, and permission for reproduction has been granted. Copyright notice should read: Used with permission of Elsevier Science & Technology Journals, from Image reconstruction: Part 1 – understanding filtered back projection, noise and image acquisition. Schofield R, King L, Tayal U, Castellano I, Stirrup J, Pontana F, et al. Journal of Cardiovascular Computed Tomography. 2020 May;14(3):219–25; permission conveyed through Copyright Clearance Center, Inc
2. The following parenthesis: “(detailed in a later section)” in the second paragraph of page 50 should be removed.
3. In the last paragraph on page 76, the symbol “ θ ” has twice been printed as “q”.
4. In Figure 38 (p. 99) the labels of the two left-most data points are not included. They should read “Br38 ADMIRE 3; p=0.066” and “Br38 ADMIRE 5; p=0.40”, respectively. The same figure, with correct labels can be found as Figure 8b in Paper IV

PAPER IV:

1. In Figure 5, the line labels are incorrect. The solid black line should represent Br43 FBP and the dashed line should represent Br38 FBP
2. In the caption to Table 5, the sentence “Paired t-test used for comparison of contrast values between FBP, ADMIRE 3 and 5, within the three different convolution kernels” should be removed.
